

EXHIBIT "A"

# TOWN OF SPAFFORD

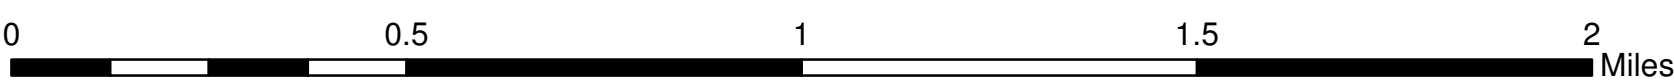

## Steep Slopes

LEGEND

Steep Slopes Categories

- A (15% to 25% slope)
- B (25% to 40% slope)
- C (>45% slope)

Steep slopes are a calculation derived from 10-meter U.S. Geological Survey Digital Elevation Models. This map shows areas within the Town that may contain slopes greater than or equal to 15%, based on category. Other such areas within the Town that are not shown may also exist.

Stream data created by the Syracuse-Onondaga County Planning Agency. Stream data is obtained from various mapping sources and shown for display purposes only, other streams may exist within the Town.
